Prominent Germans have written from the old country to the chief of police inquiring about Rudolph Mucneck, traveling in this country under the cognomen of John Miller. They say that Mucheck is of excellent family in Germany, but that they had heard that he was travelling in America like a traine. His friends are anxious to find and redeem him.

Lightning's Work. The residence of Samuel Reese, Twentysecond and Leavenworth streets, was struck by lightning Sunday night and damaged to the extent of about \$200. A CALL FOR CUSHING.

He Will be Asked to Offer Himself for

the Gubernatorial Race. A big buzz was raised in democratic bushes yesterday morning by quite a robust report to the effect that the most influential of Mayor Cushing's admirers had formulated a very tempting, rose tinted bid for him to become the party's gubernatorial candidate.

It is said that the card of request may be soked for hourly, and that it will have for a background a shadow portrait of W. J.

This card of "Come Try It Again," will, the report says, be headed by Poppleton Gal-lagher. Charley Green, the Creightons, and others, to be followed by a carefully selected list of signatures whose owners are tempora-rily out of town on their vacation. The scheme has been in the shop for many weeks and when its hourly anticipated launching becurs it is said that it will "mash" the may or

All this preparation, it is said, has not been going on without Cushing having been distantly approached on the subject. As a result, it has been ascertained that he "might perhaps" let the boys give him another whirl, and that he might perhaps tap his barrel "just a little, you know," just for the honor of teing prominently meationed for the office of severals.

From the very first Broatch has promised, pledged and sworn to swing every yote he has in the state for Cashing if the later will only "make the break in dead carnest." He counsels that the show

only "make the break in dead carnest." He counsels that the show of a general break up in party these portends very propitiously for a democratic candidate from Douglas county getting the plum.

One prominent democrat who was talked with on the subject said:

"I believe the scheme simply nothing more or less than an effort on Broatch's part to get back some of the several thousand dollars which he dropped at the recent primaries. I believe that Broatch actually thinks he has such a highly resement influence over Cushing that he has only to tap Cushing's barrel and it will respond with at least \$5,000 or \$10,000. Now, there's ue mistaking but that Broatch has—I speak with the greatest plainness—a big lot of influence over Cushing, but if the latter allows himself to be played for so rank a chump as Broatch is trying to play him for in this instance—well, he should go die! I believe that Douglas county democrats will never again be so foolish to let Broatch harness up with them after the demonstration of a few days ago. Another thing I will assure you of is that its proving a pretty tough dose for us folis to have one of our people in power and then have to put up with his being led around by the nose by a republican—un alleged republican—such as Broatch. It will be many a long month before you see such a tic-up again—so far as the democrats are concerned."

Much at a Kansas Wedding. H. B. Ebeling of Atchison, Kan., has written the chief of police begging him to find his son, Joseph Ebeling, who left his home last week in company with Joseph Dyer and Doc Dann, two bad boys who have served sentences in the reform school. Mr. Ebeling says that up to the time of his leaving home his boy had been industrious and obedient and was learning the harness makers' trade.
The night of his disappearance he went to a
wedding and his father thinks he drank too
much and was persuaded to leave home by
the two boys before mentioned.

The Smelting Works Force. Manager Nash of the Omaha smelting works, says there is no truth in the report that his men have made a demand upon the company for three eight-hour shifts. "My only knowledge that any such move is or ever has been contemplated is confined to what I saw and read in the newspapers. The men all say to us that they are well satisfied and I am certain we have heard no complaints. True the hours for two shifts are rathea long but the work is very easy and they can stand it without any difficulty. Furthermore all men who have the hardest work get four days vacation every month at full pay, and any of them can draw money when they want it, consequently they feel well satisfied."

NEAL'S IDENTITY.

Two Letters on Different Sides of the Gordon Story.

Mr. J. M. Eller of this city has received the following letter from his uncle at Car-

thage, III.;
Carriage, III., July 18.—Mr. Josh, M. Eller;—Dear nephew, I am just in receipt of yours of 15th inst. In regard to the man in prison there and convicted of murder he cannot be of the Gorion family of Burnside, II. I am intimately acquainted with the family and have been for thirty years. The lady that the paper speaks of as identifying him as Charles Gordon (Mrs. French) I am satisfied in her description has allusion to this family and has some knowledge of the family, but her knowledge must be slight. There is only the one Gordon family in Burnside or but her knowledge must be slight. There is only the one Gordon family in Burnside or near it. Dr. Gordon was the leading physi-cian of the place until nine years ago when he died, leaving a family consisting of wife and three sons—Sylvannus, near forty years old, lives in Kansas City; Albert, thirty-four, dentist in Burnside; William, farmer. One other son died a number of coars are. His name, was Lefferson Gerlon. rears ago. His name was Jefferson Gordon.
There never was a daughter in the family, so you can see there is no Charles in the family, so you can see there is no Charles in the family in the family ran off with the show spoken of or even went off with it or

any other show.

Now, inasmuch as Mrs. French is unques tionably mistaken, in justice to the Gordon family she ought to correct it as early as possible and have the correction published in the paper. All the Gordon family can be accounted for, no mistake, Yours truly, J. B. Shraeve.

N. G. Rice's Letter.

N. G. Rice of David City, Neb., who thinks he has recognized Ed Neal as a member of a respectable Hilisois family, writes the follow-

respectation frimous manny, whose the following letter:

David City, Neb., July 19.—I went to see Ed Neal at the Omaha jail on Thursday, July 15, for the purpose of recognizing him as one of the Gordon boys at Burnside, Ill., and will say that he is the exact picture of the oldest brother. Van Gordon, whom I went to school with, and if he is a Gordon at all, his name should be Willie Gordon. There never was a Charles Gordon. Willie had no sister at all, the had two brothers. Van and Bert, and his mother is still living. I have known the family for years, but had not seen any of them for twelveyears. Willie Gordon was only a boy when I left Illinois, and of course it is nard to state positively that Ed Neat is Willie Gordon. But you shall know in a day or so, as I have written to Dr. O. C. tag of Burnside, who is my father-in-law, for a full account of where the Gordon boys are. I hope I am mistaken in this matter, as the Gordons are a fine family, and Dr. Gordon was our family physician for years. Neak of course, denied to me that his name was fordon, and asked me not to telegraph to Dr. Ing. but write and find out, which I have done, and will soon know and will give you any information I can get on the subsect.

A Dying Mother's Letter.

Clinton Richliffe of Santa Rosa, Cal., writes pathetic letter to his sister, Nellie Hardy, whom he presumes to be in Omaha, telling her of the death of their mother, whom he says, "now lies in a beautiful, sunlit spot in Santa Resa's cometery." He says that be-fore their mother died she told them all that they must cease quarreling with each other. This letter Richliffe sends to the chief of Omaha's police, begging him to find his sister and deliver the letter to ner.

The Entire Season's

Accumulations of old Suit Pants are now on sale. This will be a picnic for all who need pants, and for those who do not need them right away, as it always pays to buy our Suit Pants and put them away for future use. We had several sales of odd Suit Pants before, and our patrons know what bargains they are. This season we have not sold a single pair of these pants, but as fast as the coats and vests of a suit lot were closed out, the pants were put away, We reserved them all for the express purpose of making a grand sale in July. This is the month when extra pants are needed and our customers will appreciate the opportunity to get them at less than half what they are worth.

There are nearly fifteen hundred pair of these pants. We have placed them on separate tables and divided them up into four different lots from which you can take your pick.

Lot Number One we marked \$1.90; not a pair in this lot but what is worth at least \$3.00. Lot Number Two is \$2.75; all very fine worsted and cassimere, in light and dark shades.

Lot Number Three is marked \$3.50. This lot contains about 500 pairs very fine Pants, in excellent patterns; the poorest in the lot would cost you elsewhere from \$5.00 to \$6.00.

Lot Number Four is a small lot of very choice Pants, all of the finest fancy worsteds. These are from our very best suits, such as have been selling from \$22,00 to \$25,00. We marked these Pants \$4.25, the real value of every pair is from \$7.00 to \$9.00.

Take our word for it, these are the greatest values ever offered in the Pants line.

THE PIGURE " B."

The figure 9 in our dates will make a long stay. No man or woman now living will ever date a decument without using the ferure 9. It stands in the third place in 1800, where it will remain ten years and then move up to second place in 1900, where it will rest for one hundred years. There is another "9" which has also come to stay.

It is unlike the figure 9 in our dates in the respect that it has already moved up to first place, where it will permanently remain. It is called the "No. 9" High Arm Wheeler & Wilson Sewing Machine The "No.9" was endorsed for first place by the experts of Europe at the Paris Expesition of 1889. where, after a severe contest with the leading ma-chines of the world, it was awarded the only Grand Prize given to family sewing machines, all others on exhibit having received lower awards of gold medals, etc. The French Government also recognized its superiority by the decoration of Mr. Nathaniel Wheeler, President of the company, with the Cross of the Legion of Honor,

"Lao "No. 9" is not an old machine improved upon, but is an entirely now machine, and the Grand Prize at Paris was awarded it as the grandest advance in sewing machine mechanism of the age. Those who buy it can rest assured, there fore, of having the very latest and beat.
